## LEE & ME & A CHRISTMAS TREE

**A grieving teen navigates loss, small-town gossip, and a high-pressure holiday job where unexpected kindness, quiet magic, and a slow-burn romance help her cope with her hectic life in this YA contemporary romance by L.E. DeLano, author of *BLUE* and *TRAVELER*.**

Lissy is desperate to have a car of her own, and her savings account is almost there. When her mother offers a paid internship at her company planning their big holiday gala, Lissy jumps at the chance. Unfortunately, this means she has to work with the local Christmas tree farm run by the family of someone she never wanted to see again in her life—Lee Jensen, the guy who made a fool out of her a year ago at a holiday party.

Now she has no choice but to partner up and stay professional while Lee tries to convince her he's not the guy she thought he was. Lissy is determined to make this party merry, deck those halls, and hopefully keep her heart from toppling like a newly-felled tree.
